

DEPARTMENT OF INFORMATION TECHNOLOGY

Institute Vision

"To be globally acclaimed Institute in Technical Education and Research for holistic Socio-economic development".

Institute Mission

- To ensure that 100% students are employable and employed in Industry, Higher Studies, become Entrepreneurs, Civil / Defense Services / Govt. Jobs and other areas like Sports and Theatre.
- To strengthen Academic Practices in terms of Curriculum, Pedagogy, Assessment and Faculty Competence.
- Promote Research Culture among Students and Faculty through Projects and Consultancy.
- To make students Socially Responsible Citizen.

Message from HoD's Desk

"We are confident enough that our Engineers will emerge as assets not only to this institution and to the organization, but also to the country at an extent. Along with academic knowledge we also train our Engineers to face the challenges in life by providing many value added courses to enhance their career prospects. The excellent infrastructure, teaching faculty of the best kind ensuring quality education such as interaction among students, parents and staff, along with Training & Placement Cell ensuring a bright future to our students."

ITVishwa

Volume 3 / Year:2020-2021, Issue- 1

Department Vision

"To provide student-centered state-of-the-art academically enriched environment for productive careers in the world of computing through creativity and innovation"

Department Mission

- To promote aspiring ethically conscious engineers demonstrating sustainable employability and entrepreneurship.
- To impart quality education with the focus on analytical and problem-solving skill development.
- To foster inspired scholarly environment through active student-faculty participation in research and development resulting in new knowledge-base or insights.
- To prepare students to shoulder social responsibilities by application of their skill set for betterment of society.

Scholarship Award

Dear Sunita,

Congratulations & Welcome to the Lila Poonawalla Foundation Family!!!

You have been selected for the Lila Poonawalla Foundation Scholarship from the academic year 2018 onwards. You will be receiving the scholarship amount of Rs.50,000/-per year till you complete your course, subject to the conditions attached.

You have now become a Lifetime Member of the Lila Poonawalla Foundation Family and will be called ' Lila Girl '.

The Scholarship Certificate will be awarded to you at a function that will be held on 1st December 2018 at at S.G.Barve Hall, Alpa Bachat Sankul , 7 Queens Garden Road, Camp , Pune. You are required to be present personally to receive this Award, at 8.00 a.m. along with **ONE Parent** only (no siblings or friends). On arrival, please register yourself at the Registration desk to help us in making the correct name announcements.

You will get the Scholarship amount only after the 'Orientation Program'.

Kindly note that the annual continuation of your Scholarship is subject to your fulfilling the terms & conditions attached in Annexure I.

We are also pleased to introduce M/S Goodera, our technology partner. Their team will get in touch with you and train you for using their technology platform, p3. You will be required to upload your academic and training related updates on the platform as soon as you receive your results or attend a program.

Looking forward to seeing you,

With Regards,
Yours Sincerely,

Firoz Poonawalla

HANDS-ON EXPERIMENT S

Basic Classification using TensorFlow

Convolutional Neural Networks using TensorFlow

Image Classification using TensorFlow

Transfer Learning using TensorFlow

Prerequisites

- Intermediate concepts of Python programming language.
- Basic concepts of Neural Networks and Deep Learning.
- Basic concepts of Image Recognition.

Image Recognition with TensorFlow Image recognition (or image classification) is the task of enabling machines for identifying images and categorizing them in one of several pre-defined distinct classes. Image recognition software and apps can define what's depicted in a picture and distinguish one object from another. The only problem is that significantly more time and effort is needed to teach computers how to “see” like us. Enters TensorFlow - it is considered the “industrial lathe” of deep learning frameworks: a powerful tool which is easy to use and provides you both high-level and low-level customization. It is the fastest and the simplest way to do image recognition on your laptop or computer without any GPU. Join the program to get started with TensorFlow 2.0 and explore how to apply its high-level APIs in a traditional image classification setting.

Recommendation for “Practical Big Data Analytics” course

The semester-long weekend course on “Practical Big Data Analytics” offered by Vishwakarma Learning Labs, Vishwakarma Institute of Technology, Pune is a good choice for those who want to aspire career in the data analytics field. As the field is growing rapidly, there is a huge demand of workforce with these skillsets.

This course has a curriculum as per the current industry demands. Data analytics field being interdisciplinary in nature, the course covers core subjects like statistical analysis using R, big data analysis using Hadoop technologies, machine learning using R / Python. These subjects would be taught by industry experts and experienced academicians. Focus of the course is on conceptual understanding as well as hands on for acquiring insights into the real world case studies. Good performing students also get an opportunity for an internship/ placement with HEXANIKA Solutions Pvt. Ltd. or other relevant companies. Completing this course would definitely be a good beginning of the journey towards becoming a data scientist.
