

## DEPARTMENT OF INFORMATION TECHNOLOGY

### **Institute Vision**

"To be globally acclaimed Institute in Technical Education and Research for holistic Socio-economic development".

### **Institute Mission**

- To ensure that 100% students are employable and employed in Industry, Higher Studies, become Entrepreneurs, Civil / Defense Services / Govt. Jobs and other areas like Sports and Theatre.
- To strengthen Academic Practices in terms of Curriculum, Pedagogy, Assessment and Faculty Competence.
- Promote Research Culture among Students and Faculty through Projects and Consultancy.
- To make students Socially Responsible Citizen.

### **Message from HoD's Desk**

*"We are confident enough that our Engineers will emerge as assets not only to this institution and to the organization, but also to the country at an extent. Along with academic knowledge we also train our Engineers to face the challenges in life by providing many value added courses to enhance their career prospects. The excellent infrastructure, teaching faculty of the best kind ensuring quality education such as interaction among students, parents and staff, along with Training & Placement Cell ensuring a bright future to our students."*

**My Contributions to VR & AR**

Virtual Reality and Augmented Reality

Played critical role in technical capacity to establish VR/AR service offering within ENG unit. Following is snapshot of contributions and achievements in one year.

In short span, built first VR hardware i.e. Google Cardboard at Infocys and taken this new initiative to the masses through blog titled "Experience Virtual Reality (VR) with just Rs. 25".

Our R&D efforts helped Infocys to win first VR/AR project from Google with revenue projections close to 1 MS for the first year.

Published blog at on LinkedIn titled "Graduated from Google Cardboard to Daydream and I'm loving it!".

Conducted several VR workshops for corporates as well as academicians. Delivered technical and training sessions on VR & AR.

**Benefits of VR & AR in Education & Training**

- Virtual Reality and Augmented Reality are effective training solutions and yields in amazing training benefits to the organization:
- Immersive learning experiences with visual approach
- Innovative and engaging training experience
- Hands on experience without risks or fear of mistakes
- Easy training access for remote employees
- Saves time and cost
- Same application can be used

VR = Learn-the-job  
AR = On-the-job  
MR = Do-the-job

### Recommendation for “Practical Big Data Analytics” course

The semester-long weekend course on “Practical Big Data Analytics” offered by Vishwakarma Learning Labs, Vishwakarma Institute of Technology, Pune is a good choice for those who want to aspire career in the data analytics field. As the field is growing rapidly, there is a huge demand of workforce with these skillsets.

This course has a curriculum as per the current industry demands. Data analytics field being interdisciplinary in nature, the course covers core subjects like statistical analysis using R, big data analysis using Hadoop technologies, machine learning using R / Python. These subjects would be taught by industry experts and experienced academicians. Focus of the course is on conceptual understanding as well as hands on for acquiring insights into the real world case studies. Good performing students also get an opportunity for an internship/ placement with HEXANIKA Solutions Pvt. Ltd. or other relevant companies. Completing this course would definitely be a good beginning of the journey towards becoming a data scientist.
